START LOVING YOUR FEET

At Toffeln, we know how poorly designed, ill-fitting and inappropriate footwear can impact hard-pressed arches and tender toes. That's why we've made it our mission to help healthcare professionals have healthier, supremely well supported feet.

We work alongside the leading biomechanics researchers to create ergonomically designed, super lightweight, beautifully fitting footwear, that provides ultimate comfort for hour after hour of standing, lifting and walking.

And driven by our commitment to make every minute of those long working shifts seem shorter, we say to you, start loving your feet, because we do.

3 STEPS TO EASY ORDERING

THE SCIENCE OF COMFORT

TOFFELN BIOMECHANICS ARE WORKING FOR YOU

For many years, we have worked alongside experts from the University of Salford to explore how to harness the science of biomechanics (the way your body works) and material science (the way stuff works). Providing us with exclusive access to advanced scientific knowledge in shoe design and foot support, the research team help us to understand exactly what our customers put their feet through.

With this insight, we ensure that every feature of our footwear undergoes a thorough cycle of research, product design, product development, performance testing and wearer evaluation. As well as enabling us to stay one step ahead, it means that we continue to manufacture shoes that remain comfortable and supportive, shift after shift and mile after mile.

OUR SMARTSOLE COLLECTION

THE ULTIMATE FOOT PAIN RELIEF

Our feet are unique - the way they look, the way they feel, even the way we walk. So, when it comes to our shoes we don't take a 'one size fits all' approach. Two years in the making, it's time to discover the Toffeln SmartSole range.

Our advanced range of SmartSoles and customizable insoles will make your working day far more comfortable, no matter the shape or size of your feet.

A PERFECT FIT WITH OUR FREE INSOLES

Because everyone's feet are different, we include 3 types of insoles free with each pair of SmartSole shoes.

HallmarkSurgical™
When you care.

"I have sensitive feet and started having pain due to plantar fasciitis ...very difficult to find comfortable shoes. I bought other clogs from other brands and had to send them back, but these are lovely!
I bought 3 pairs, different colours, as I work in different places, and have no regrets. Best thing I ever did, don't feel pain any more as they have elevated heels. And the fact that you can choose the insole you want to use is a plus."

HallmarkSurgical™
When you care.

Since 1978

Inspired by a friend who was making wooden soled clogs in his back garden shed, Toffeln, (the Swedish word for 'clog') was established over 40 years ago. Located in Kingswood, Bristol, the South West's spiritual home of shoemaking, we've always been able to draw on local talent, knowledge and experience.

From the start, we've made it our mission to truly 'listen' to our customers and we now have a reputation as the leading provider of medical footwear in the UK, creating unique designs born of our understanding of the day to day demands that our customers face.

Constantly challenging ourselves, we apply a combination of science, technology, insight and inspiration to innovate new ways of manufacturing to support healthcare professionals in their working lives.

Though we supply around 20 countries across the world, we remain a family business; caring, compassionate and committed to improving the working lives of hardworking nurses, doctors and healthcare workers across the country.
