HallmarkSurgical™

Proving indispensable to those who care.

hallmarksurgical.com

When you care.

The Healthcare Profession, as caring for life, is arguably the most responsible and most respected professions known to man. Life is precious and perilous. To fall short when a life, (or lives), are at stake is unthinkable – on both your part and ours.

Hallmark Surgical - the name stands for excellence - has deliberately set the bar high. The instruments and devices we provide are devoted to preserving that life. But, more than that, Hallmark Surgical upholds the skill and experience of people by providing you with trusted knowledge and support, at all levels of health care.

Because, like you, every day we both protect and serve.

What's in it for you?

E598206ST	5/32" screw thread plug
E598340BP	4mm female banana plug

Diathermy Quivers

- Screw off base for easy cleaning
- Stainless steel holding ring
- High grade medical plastic - will not split, crack or powderise
- Belled top design for easy instrument placement
- Reusable, autoclavable at 134°C
- UOM: Each

Order Code	Product
EDQS15	150mm
EDQS20	200mm
EDQS25	250mm
EDQS30	300mm

Order Code	Product
EDQS35	350mm
EDQS40	400mm
EDQSC	Quiver end cap only
EDQSR	Quiver ring only

Electrocauteries Single Use

- Fast and effective precision cauterization
- Designed for wide variety of applications
- Battery powered and cordless
- Available in varying temperatures and tip sizes
- Single use, sterile packed
- UOM: Each, Box (10 units)

Order Code	Product
EF7233	1200°C Semi-extended fine 50mm tip
EF7234	1200°C Extended fine 75mm tip
EF7244	1200°C Fine 28mm tip
EF7255	600°C Fine 28mm tip

EF7288	800°C Thick 28mm tip

ALSA Diathermy Generators

Multi-functional diathermy generators for minor surgical procedures

ALSA 80w Electrosurgical Generator

- 80 watt output
- Footswitch activation
- 9 monopolar functions; bipolar function
- Digital control panel
- Touchpad switches for easy cleaning
- Supplied with ALSA Monopolar Accessory Kit - ESB700/A
- Made in Italy

Order Code	Product
ESU50MPC	Multi Function 80W

ALSA Monopolar Accessory Kit

- 1 x footswitch pencil with 3m cable
- 1 x patient return plate with 3m cable
- 1 x silicone patient strap
- 6 x electrodes including blades, needles and balls
- All items are reusable and autoclavable

Order Code	Product
ESB700/A	ALSA Monopolar Accessory Kit (suits ALSA 80w Electrosurgical Generator - ESU50MPC)

ALSA 140w Electrosurgical Generator

- 140 watt output
- Handswitch and footswitch activation
- 9 monopolar functions
- Bipolar function
- Digital control panel
- Touchpad switches for easy cleaning
- Supplied with ALSA Monopolar Accessory Kit - ESB730/A
- Made in Italy

Order Code	Product
ESU140MPC	Multi Function 140W

ALSA Diathermy Generator Accessories

Multi-functional Diathermy Generators for minor surgical procedures.

ALSA Monopolar Accessory Kit

- 1 x handswitch pencil with 3m cable
- 1 x patient return plate with 3m cable
- 1 x silicone patient strap
- 6 x electrodes including blades, needles and balls
- All items are reusable and autoclavable
- Suits ALSA 140w Electrosurgical Generator (ESU140MPC)

Order Code	Product
ESB730/A	ALSA Monopolar Accessory Kit (suits ALSA 140w Electrosurgical Generator - ESU140MPC)

Patient Return Pad Electrodes

Order Code	Product
ES801274	Patient return pad electrode with 3m cable; stainless steel; reusable
ES449195	Patient return cable only; 3m cable; reusable
ES712353	Patient return plate only; stainless steel; reusable
ES800842	Silicone fixing belt; reusable
E801147	Patient return pad; self-adhesive; without cable; single use

SOLO™ Proctoscopes and Anoscopes

Premium european manufacture

SOLO™ Self-Lighting Proctoscopes

- Crystal clear plastic guarantees excellent light transmission
- Inbuilt LED light source for bright white illumination
- Light is precision focused for optimum site visibility
- Light system compatible
- Exceptionally smooth transition from obturator to proctoscope for ease of insertion
- Single use, latex free, clean packed
- UOM: Each; Dispenser Box (30 units)

Order Code	Product
P202S	Paediatric - 12mm ID / 16mm OD
P203M	Standard - 18mm ID / 22mm OD
P204L	Procedure - 22mm ID / 26mm OD

Solo™ Anoscopes – Bevelled Edge

- Exceptionally smooth transition from obturator to proctoscope for ease of insertion
- Opaque white PEHD material directs light forward for superior illumination
- Similar design to common reusable anoscopes
- Single use, latex free, clean packed
- UOM: Each; Dispenser Box (30 units)

Order Code	Product
P2322M	Examination / Standard - 22mm ID
P2324L	Procedure / Large - 24mm ID

Solo™ Anoscopes – Straight Edge

- Surgical quality, with obturator
- Opaque white PEHD material directs light forward for superior illumination
- Similar design to common reusable anoscopes
- Single use, latex free, clean packed
- UOM: Each; Dispenser Box (30 units)

Order Code	Product
P2326FL	Procedure / Large - 24mm ID

LumenEye®

A revolution in rigid sigmoidoscopy!

The LumenEye® X1 has been designed with the patient and user in mind, delivering high quality imaging of the anorectum at point of care, reducing the need for formal endoscopy. The LumenEye® X1 system includes the following:

- LumenEye® X1 endoscope
- Tablet display with full HD screen
- Intuitive CHiP software platform
- Portable case & workstation
- For each procedure, a disposable manifold and a scope is used

The intelligent design of the LumenEye® X1 allows for comfortable, efficient scoping and biopsy experience for both the user and patient, all of which can be carried out at point of care.

- High quality imaging
- Tablet displays full HD images and video
- USB connection for fast data transfer
- Immediate diagnosis & treatment planning
- Securely store & share images

Clinical Applications

The LumenEye® X1 can be used in numerous indications including:

- Outpatient clinics
- Cancer resection planning
- Anastomosis health monitoring
- Ileal pouch surveillance
- Endoscopic surgery
- IBD assessment

Order Code	Product
P2230LM	LumenEye X1
P2231HW	Scope and manifold set
P2232LG	Scope and manifold set with camera cover

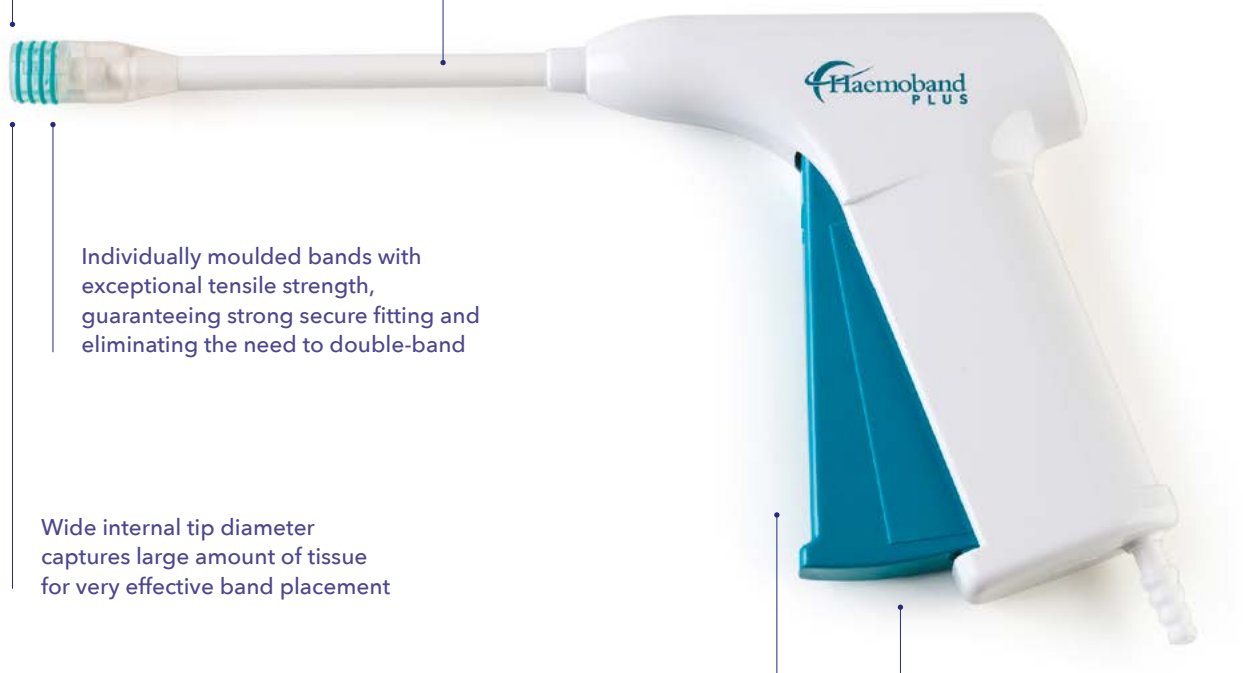

Haemoband Pre-loaded Ligator

Pre-loaded with 4 bands reducing procedure times by 40-50%!

Slimline bander shaft allows greater visibility for the surgeon

Available with suction tubing or proctoscopes

Individually moulded bands with exceptional tensile strength, guaranteeing strong secure fitting and eliminating the need to double-band

Wide internal tip diameter captures large amount of tissue for very effective band placement

Fast positive trigger action activates suction, fires the band and re-loads all in one seamless motion

Integrated suction control through the trigger for total control to the surgeon

Haemorrhoid Banding

Pre-loaded for fast and efficient banding

Haemoband Plus Pre-Loaded Suction Bander

- Fast, positive trigger activation
- Multi-action trigger that controls suction, fires and reloads the bands
- Pre-loaded with 4 bands for fast procedure time
- Connects to standard suction system
- SOLO™ PVC tubing available as optional extra (6mm ID x 9mm OD x 2.0m length) fitted with universal female connectors
- Single use, latex free, clean packed
- UOM: Each; Dispenser Box (8 units)

Order Code P305T

Haemoband Plus and Suction Tubing Kit

- Haemoband Plus Pre-Loaded Suction Bander
- Suction tubing (6mm ID x 9mm OD x 2.0m length) fitted with universal female connectors
- Single use, clean packed, latex free
- UOM: Each; Dispenser Box (8 units)

Order Code P305TGR

Haemoband Plus and Proctoscope Kit

- Haemoband Plus Pre-Loaded Suction Bander
- SOLO™ large / procedural proctoscope with LED light piece
- Single use, clean packed, latex free
- UOM: Each; Dispenser Box (8 units)

Order Code P307TP

Haemorrhoid Banding

Pre-loaded for fast and efficient banding

Haemoband Plus, Suction Tubing and Proctoscope Kit

- Haemoband Plus Pre-Loaded Suction Bander
- SOLO™ large / procedural proctoscope with LED light piece
- Suction tubing (6mm ID x 9mm OD x 2.0m length) fitted with universal female connectors
- Single use, clean packed, latex free
- UOM: Each; Dispenser Box (8 units)

Order Code P307TPGR

Askir 30 Suction Aspirator

- Airflow 40L/min, 600mm/Hg
- Continuously variable suction control
- Recommended suction strength for haemorrhoid banding
- Autoclavable 1L canister and silicone tubing
- Anti-bacterial filter
- Quiet operation
- Made in Italy, 2 year warranty
- UOM: Each

Order Code PA30

CA-MI Suction Filter

- Suction filter for Askir 30 Suction Aspirator (PA30)
- Latex free, clean packed
- UOM: Dispenser Box (20 units)

Order Code PSP0046

Self Lighting Sigmoidoscope System

Sigmoidoscope Systems

The widest range of sigmoidoscopy kits available

Self Lighting Sigmoidoscope System

- 6 powerful LED lights provide excellent distal illumination
- Brightest illumination of any sigmoidoscope available, for optimum visibility
- Removable power cell, ON/OFF switch
- Single use, latex free, clean packed
- UOM: Each; Dispenser Box (4 units)

Order Code P2211SS

SOLO™ Sigmoidoscope and Bellow Set

- Crystal clear plastic guarantees excellent light transmission
- Connects to all common light source systems
- Does not require the insufflation filter
- Single use, latex free, clean packed
- *Lighthead not included
- UOM: Each; Dispenser Box (20 units)

Order Code P2102BX

SOLO™ Sigmoidoscope

- Crystal clear plastic guarantees excellent light transmission
- Compatible with standard reusable light heads and light source systems
- Single use, latex free, clean packed
- UOM: Each; Dispenser Box (25 units)

Order Code P211SG

Sigmoidoscope Systems

The widest range of sigmoidoscopy kits available

SOLO™ Sigmoidoscope Filter

- For use with reusable bellows
- Anti-bacterial
- Luer lock connection
- Single use, latex free
- UOM: Each; Dispenser Box (25 units)

Order Code P210105

Reusable Bellows

- Surgical grade silicone, latex free
- Autoclavable
- UOM: Each

Order Code P300020

Sigmoidoscope Light Head

- Fits to SOLO™ sigmoidoscope P211SG and P2102BX kit
- Single piece design with hinged cap
- Stainless steel construction
- Reusable, autoclavable
- UOM: Each

Order Code PBC702

Cordless Illuminator

Long-lasting bright, white, LED bulb for brilliant visibility

Robust stainless steel housing with 5 year warranty

Powered by 2 x AA batteries

Cordless illumination for sigmoidoscopes, proctoscopes and anoscopes

Autoclavable stainless steel housing, ensuring best practice hygiene is maintainted

Knurled hand-grip for perfect control during the procedure

Lighting Accessories

The exact lighting system to meet your need

SOLO™ Sigmoidoscope Light Head

- Resposable – can be soaked, wiped down, sanitised but not autoclaved. Suitable for 20 uses
- Fits to SOLO™ sigmoidoscope P211SG and P2102BX kit
- Connects to cable illuminator
- Non-sterile, latex free
- UOM: Each

Order Code P21001LH

LED Cordless Illuminator

- For SOLO™ proctoscopes, anoscopes and sigmoidoscopes
- Long lasting bright white LED bulb (50,000 hours)
- Stainless steel construction
- Autoclavable
- 5 year warranty, made in Canada
- UOM: Each

Order Code P222LD

Cable Illuminator

- 6 Volts x 6 Watts mains power supply with bright, white halogen bulb for excellent colour rendition and illumination
- Ideal for GP and general examination use
- Connects to SOLO™ proctoscopes, anoscopes and sigmoidoscopes via lighthead or adaptor
- UOM: Each

Order Code P302900

Lighting Accessories

The exact lighting system to meet your need

SOLO™ Proctoscope Adaptor

- Resposable – can be soaked, wiped down, sanitised but not autoclaved
- Non-sterile, latex free
- Connects SOLO™ proctoscopes to cable illuminator
- UOM: Each

Order Code	Product
P2001AD	Staight proctoscope adaptor

SOLO™ Proctoscope Adaptor Curved

- Resposable – can be soaked, wiped down, sanitised but not autoclaved
- Non-sterile, latex free
- Connects SOLO™ proctoscopes to cable illuminator and LED cordless illuminator
- UOM: Each

Order Code	Product
P333CV	Curved proctoscope adaptor

Proctoscope Adaptor – Stainless Steel

- Connects SOLO™ proctoscopes to cold light source units
- Stainless steel construction
- Reusable, autoclavable
- UOM: Each

Order Code	Product
PGA302	Straight adaptor - screw thread fitting

Lighting Accessories

The exact lighting system to meet your need

Proctoscope Adaptor – Stainless Steel

- Connects SOLO™ proctoscopes to LED cordless illuminator & cable illuminator
- Stainless steel construction
- Reusable, autoclavable
- UOM: Each

Order Code	Product
PGA302WA	Straight adaptor - square fitting

SOLO™ Anoscope Light Source Adaptor

- Connects SOLO™ anoscopes to LED cordless illuminator and cable illuminator
- Stainless steel & fibre optic construction
- Reusable, autoclavable
- UOM: Each

Order Code	Product
PGA303S	Short handle
PGA305F	Long handle

SOLO™ LED Illuminator for Proctoscopes

- Suits SOLO™ proctoscope range
- High light output, latest generation LED
- Pull tab for light switch
- Single use, latex free, clean packed
- UOM: Each; Dispenser Box (30 units)

Order Code P2002SL

Bowel Washout Systems

Innovative, enclosed bowel washout systems for odour free and fast procedures

SOLO™ Bowelbathe™ On-Table Bowel Washout Kit

- All-in-one ready to use kit for intra-operative colonic lavage
- Fast, easy, odourless, sealed collection system
- 10-15 minutes average washout time
- No second incision required at appendix
- No leakage or soiling
- Enables on-table colonoscopy following lavage
- Single use, latex free, sterile packed
- UOM: Each

Order Code	Product
P501RW	35mm hose
P502WR	46mm hose

SOLO™ Bowelbathe™ Rectal Washout Kit

- All-in-one ready to use kit, for washing out rectum and distal colon of faecal matter and exfoliated cancer cells
- Soft atraumatic proctoscope tip instead of obturator
- Fast, easy, odourless and leak-free sealed collection system
- Large bore waste tubing
- 3ltr sealed waste container
- Single use, latex free, sterile packed
- UOM: Each

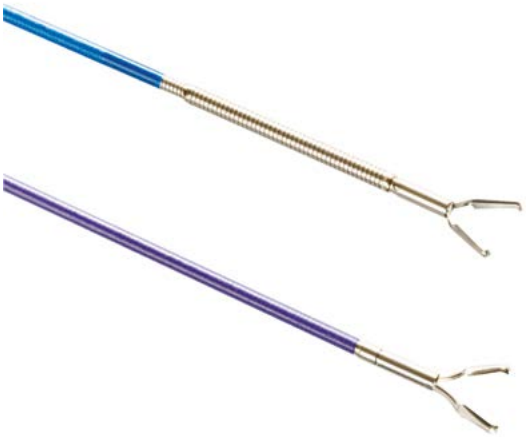

Order Code	Product
P505PR	Rectal washout kit

Endoscopy

42 HemoClips
42 Multiband ligators
42 Injection Needles
43 Biopsy Forceps
44 Retrieval Devices
45 Dilation Balloons
46 Snares
47 Guide Wires
48 Papillotomes
49 Extraction Devices
50 Stents
52 Endoscopy Accessories

HemoClips, Multiband Ligators and Injection Needles

Safeclip® HemoClip

- Flexible distal end for easy access and positioning
- Large opening for efficient tissue grasping
- One by one rotation for easy manipulation
- Locking system when the clip is deployed to avoid tracking wire exposure beyond the sheath
- Repositionable clip

Order Code	Size
P340WE	13mm x 2300mm
P341TR	11mm x 1800mm
P342GH	11mm x 2300mm
P343LK	16mm x 1800mm

Ezyshoot® Multiband Ligator

- Pre loaded guiding catheter for easy mounting
- Universal luer lock connection for cleaning
- Silicone ring for better suction
- Can be mounted on all endoscopes
- Green colour code ring for quick identification of the last shot

Order Code	Product
P350LP	6 rings - latex
P351BN	7 rings - latex
P352CV	10 rings - latex

Calibra® Disposable Injection Needles

- Teflon catheter
- Easy locking system
- Luer lock connection for easy syringe fixing
- Metallic tip for safer use in bent postion

Order Code	Product
P360BH	22g x 180cm
P361LJ	22g x 230cm
P362QA	25g x 230cm
P363CH	19g x 180cm

Biopsy Forceps

Disposable Biopsy Forceps – Cup Style

- Oval cup style forcep
- Models available for bronchoscopy, gastroscopy, paediatrics and colonoscopy
- Stripes on coating to signify entry and exit on device

Order Code	Product
P370YT	120cm x 5mm
P372HK	180cm x 7mm
P373AM	160cm x 5mm
P375XZ	230cm x 7mm

Disposable Biopsy Forceps – Cup with Spike

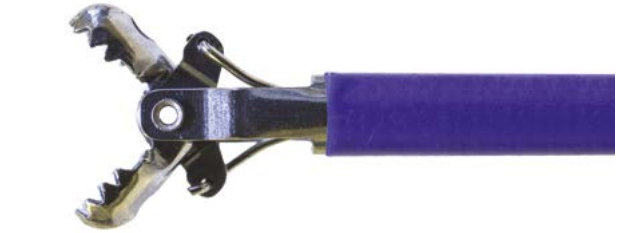

- Oval cup style with spike providing excellent tissue security
- Stripes on coating to signify entry and exit on device
- Available for gastroscopy and colonoscopy

Order Code	Product
P376WP	180cm x 7mm
P377AL	230cm x 7mm

Disposable Biopsy Forceps – SharkBite

- Flexible jaws ideal for access to biopsy site
- Stripes on coating to signify entry and exit on device
- Available for gastroscopy and colonoscopy
- Available with or without spikes

Order Code	Product
P378NH	180cm x 5.8mm - without spike
P379LW	230cm x 5.8mm - without spike
P380BD	230cm x 5.8mm - with spike
P381FW	230cm x 8mm - without spike

Retrieval devices

Captiva® Disposable Rotatable Net

- Unique rotatable models
- Strong net providing excellent resistance
- Paediatric model available
- Oval and hexagonal shapes available

Order Code	Product
P386HL	20mm x 50mm - 160cm (oval shape)
P387VC	20mm x 50mm - 120cm (oval shape)
P388WF	30mm x 60mm - 230cm (oval shape)
P389KM	30mm - 230cm (hexagonal shape)

Disposable Foreign Body Forceps

- Combined alligator with rat-tooth style available
- Multi-use device for foreign bodies, plastic stents, metallic stents and intragastric balloons
- Triple prong retriever available

Order Code	Product
P395TU	Alligator style - 160cm x 9mm
P396DT	Rat-tooth style - 180cm x 7.6mm
P397JC	Alligator with rat-tooth style - 160cm x 7.1mm
P398AT	Alligator with rat-tooth style - 230cm x 15.5mm
P399HQ	3-prong - 230cm x 35mm

Dilation balloons

Precision® Progressive Dilation balloon

- Dilation balloons for esophageal and colonic procedures
- "Y"connector permitting guide wire blocking and contrast injection in all models
- 3 radiopaque rings for better positioning
- All models in 240cm to facilitate references management
- Accepts a guide wire of 0.035 inch
- Provided with removable stylet
- All balloons are 55mm in length

Order Code	Product
P400VT	6 / 7 / 8mm
P401AS	8 / 9 / 10mm
P402ZE	10 / 11 / 12mm
P403TH	12 / 13.5 / 15mm
P404HQ	15 / 16.5 / 18mm
P405YB	18 / 19 / 20mm

Precision® Endoscopic Papillary Dilation Balloons

- Excellent visibility during the procedure
- Large size with progressive technology dilation
- Wire guided balloon
- Reduced risk of post dilation pancreatitis as the balloon will not force the CBD into a straight position

Order Code	Product
P497MC	4mm
P490LP	6 / 7 / 8mm
P491BN	8 / 9 / 10mm
P492LT	10 / 11 / 12mm
P493AR	12 / 13.5 / 15mm

Snares

SensorPlus® Disposable Rotatable Snare

- One by one rotation on all models
- Available in multibranded or monofilament designs
- Teflon sheath for soft and easy insertion
- Ergonomic handles
- Efficient cutting properties
- Wide range of configuration and loop sizes

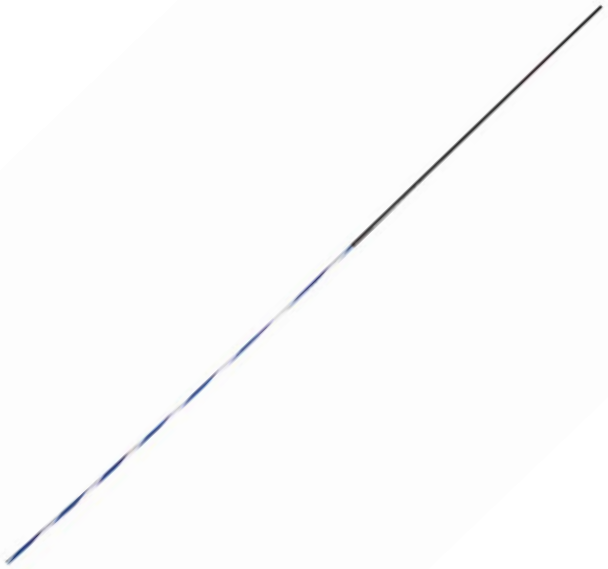

Order Code	Product
P420TJ	Oval - 6mm (multibraided)
P421HQ	Oval - 10mm (multibraided)
P422PA	Oval - 15mm (multibraided)
P423HZ	Oval - 25mm (multibraided)
P424BR	Oval - 35mm (multibraided)
P425LM	Round - 10mm (multibraided)
P426RF	Oval - 15mm (monofilament)
P427TR	Oval - 25mm (monofilament)

Guide Wires

Guide Wires (long)

- Nitinol shaft for kink resistant and efficient manipulations
- Hydrophilic coating for effective tracking
- Excellent ROX vision
- Dual colour code visibility to ensure good sensation
- One reference offering dual distal shape tip

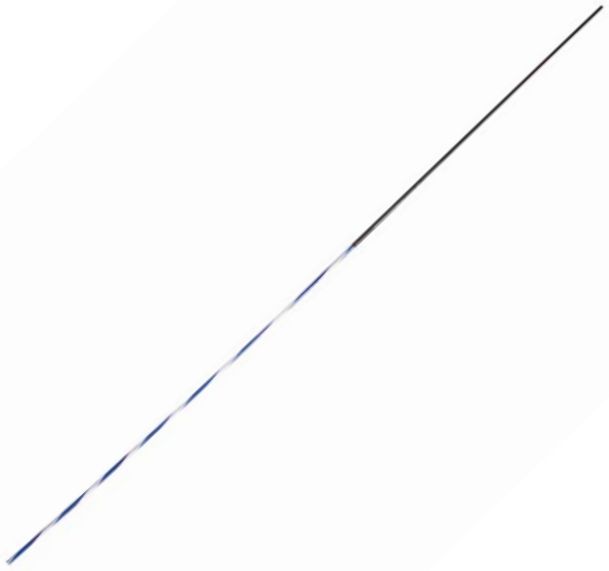

Order Code	Product
P455WH	0.035" - Hydrophilic nitinol with two floppy tips (straight and angled)
P456QC	0.035" - Nitinol guide wire (straight)
P457PR	0.035" - Nitinol guide wire - stiff (straight)
P458HT	0.025" - Nitinol guide wire (straight)

Guide Wires (short)

- Nitinol shaft for kink resistant and efficient manipulations
- Hydrophilic coating for effective tracking
- Excellent ROX vision
- Dual colour code visibility to ensure good sensation
- One reference offering dual distal shape tip

Order Code	Product
P465TY	0.035" - Highly hydrophilic straight nitinol guide wire - 260cm
P466HQ	0.035" - Nitinol guide wire with 10cm stainless steel floppy tip - 300cm
P467WT	Stainless steel guide wire for esophageal procedures

Papillotomes

G–Tome® Disposable Papillotome

- Tapered tip for efficient cannulation
- Available in multibraided cutting wire
- Wide range of cutting wire length
- Available partially covered
- Needle knife version
- Universal knifesnake model for use along with all sphincterotomes and progressive EPBD balloon

Order Code	Product
P470HV	Cutting wire - 20mm
P471BH	Cutting wire - 25mm
P472PL	Cutting wire - 30mm (safe cut)
P473TW	KnifeSnake® HF Cutting Wire - 0,032"
P474PM	Needle

RotaTome® Disposable Papillotomes

- Rotatable models
- Tapered tip for efficient cannulation
- Available in monofilament cutting wire
- Wide range of cutting wire lengths
- Available partially covered

Order Code	Product
P480BN	20mm - monofilament
P481MK	25mm - monofilament
P482DA	30mm - monofilament (safe cut)

MonoTome® Disposable Papillotomes

- Non-rotatable
- Tapered tip for efficient cannulation
- Available in monofilament cutting wire
- Wide range of cutting wire length and available also partial covered

Order Code	Product
P485VT	20mm - monofilament
P486CW	25mm - monofilament

Extraction Devices

StoneTrigger® Extraction Balloon

- Unique flat design balloon offering large retrieval surface for more stone extraction
- Special design catheter for easy manipulation
- Progressive size offering an efficient extraction to most anatomical ducts
- Delivered with pre-calibrated syringe

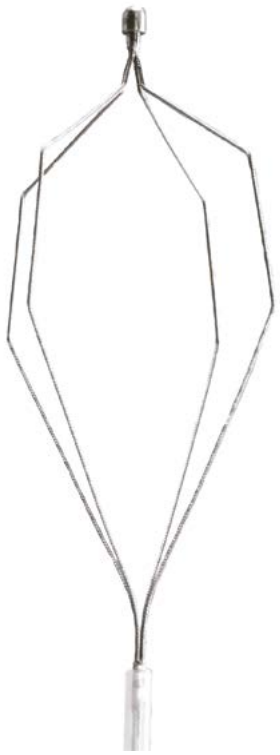

Order Code	Product
P510RT	8.5 / 12 / 15mm
P511XT	12 / 15 / 18mm

Extraction Baskets

- Models with fixed and/or removable handle
- Strong 4 wire shape design made of medical grade multibraided stainless steel offering great sensitivity during the manipulation
- Ball tip design for perfect positioning
- Complete range of litho baskets that can be used as a standard extraction basket or lithotripsy within the scope channel
- Unique litho design handle for both emergency and/or endoscopic lithotripsy

Order Code	Product
P517BH	2.2mm - opening 15 x 25mm (40mm)
P518TW	2.2mm - opening 20 x 30mm (50mm)
P519CV	2.2mm - opening 25 x 40mm (60mm)

Stents

Ezyflex® Stent Kits

- Colour coded system
- Highly resistant positioning stent system with ROX marker for efficient positioning
- Preloaded stent kit
- All 8.5 and 10 Fr kits come with a guiding catheter

Order Code	Product
P5371TG	7 Fr x 5cm
P538DX	7 Fr x 7cm
P539UJ	7 Fr x 9cm

Endoscopy Accessories

SOLO™ Polyp Trap

- Enables uninterrupted suctioning
- Separates polyps from endoscopic fluid
- Magnifying lens and transparent construction allows quick visual verification of specimen
- Supplied with 2 removable specimen baskets for fast and uninterrupted procedure
- Scale on inside of specimen strainers shows size of specimen collected
- Single use, latex free, clean packed
- UOM: Each; Box (24 units)

Order Code P312PT

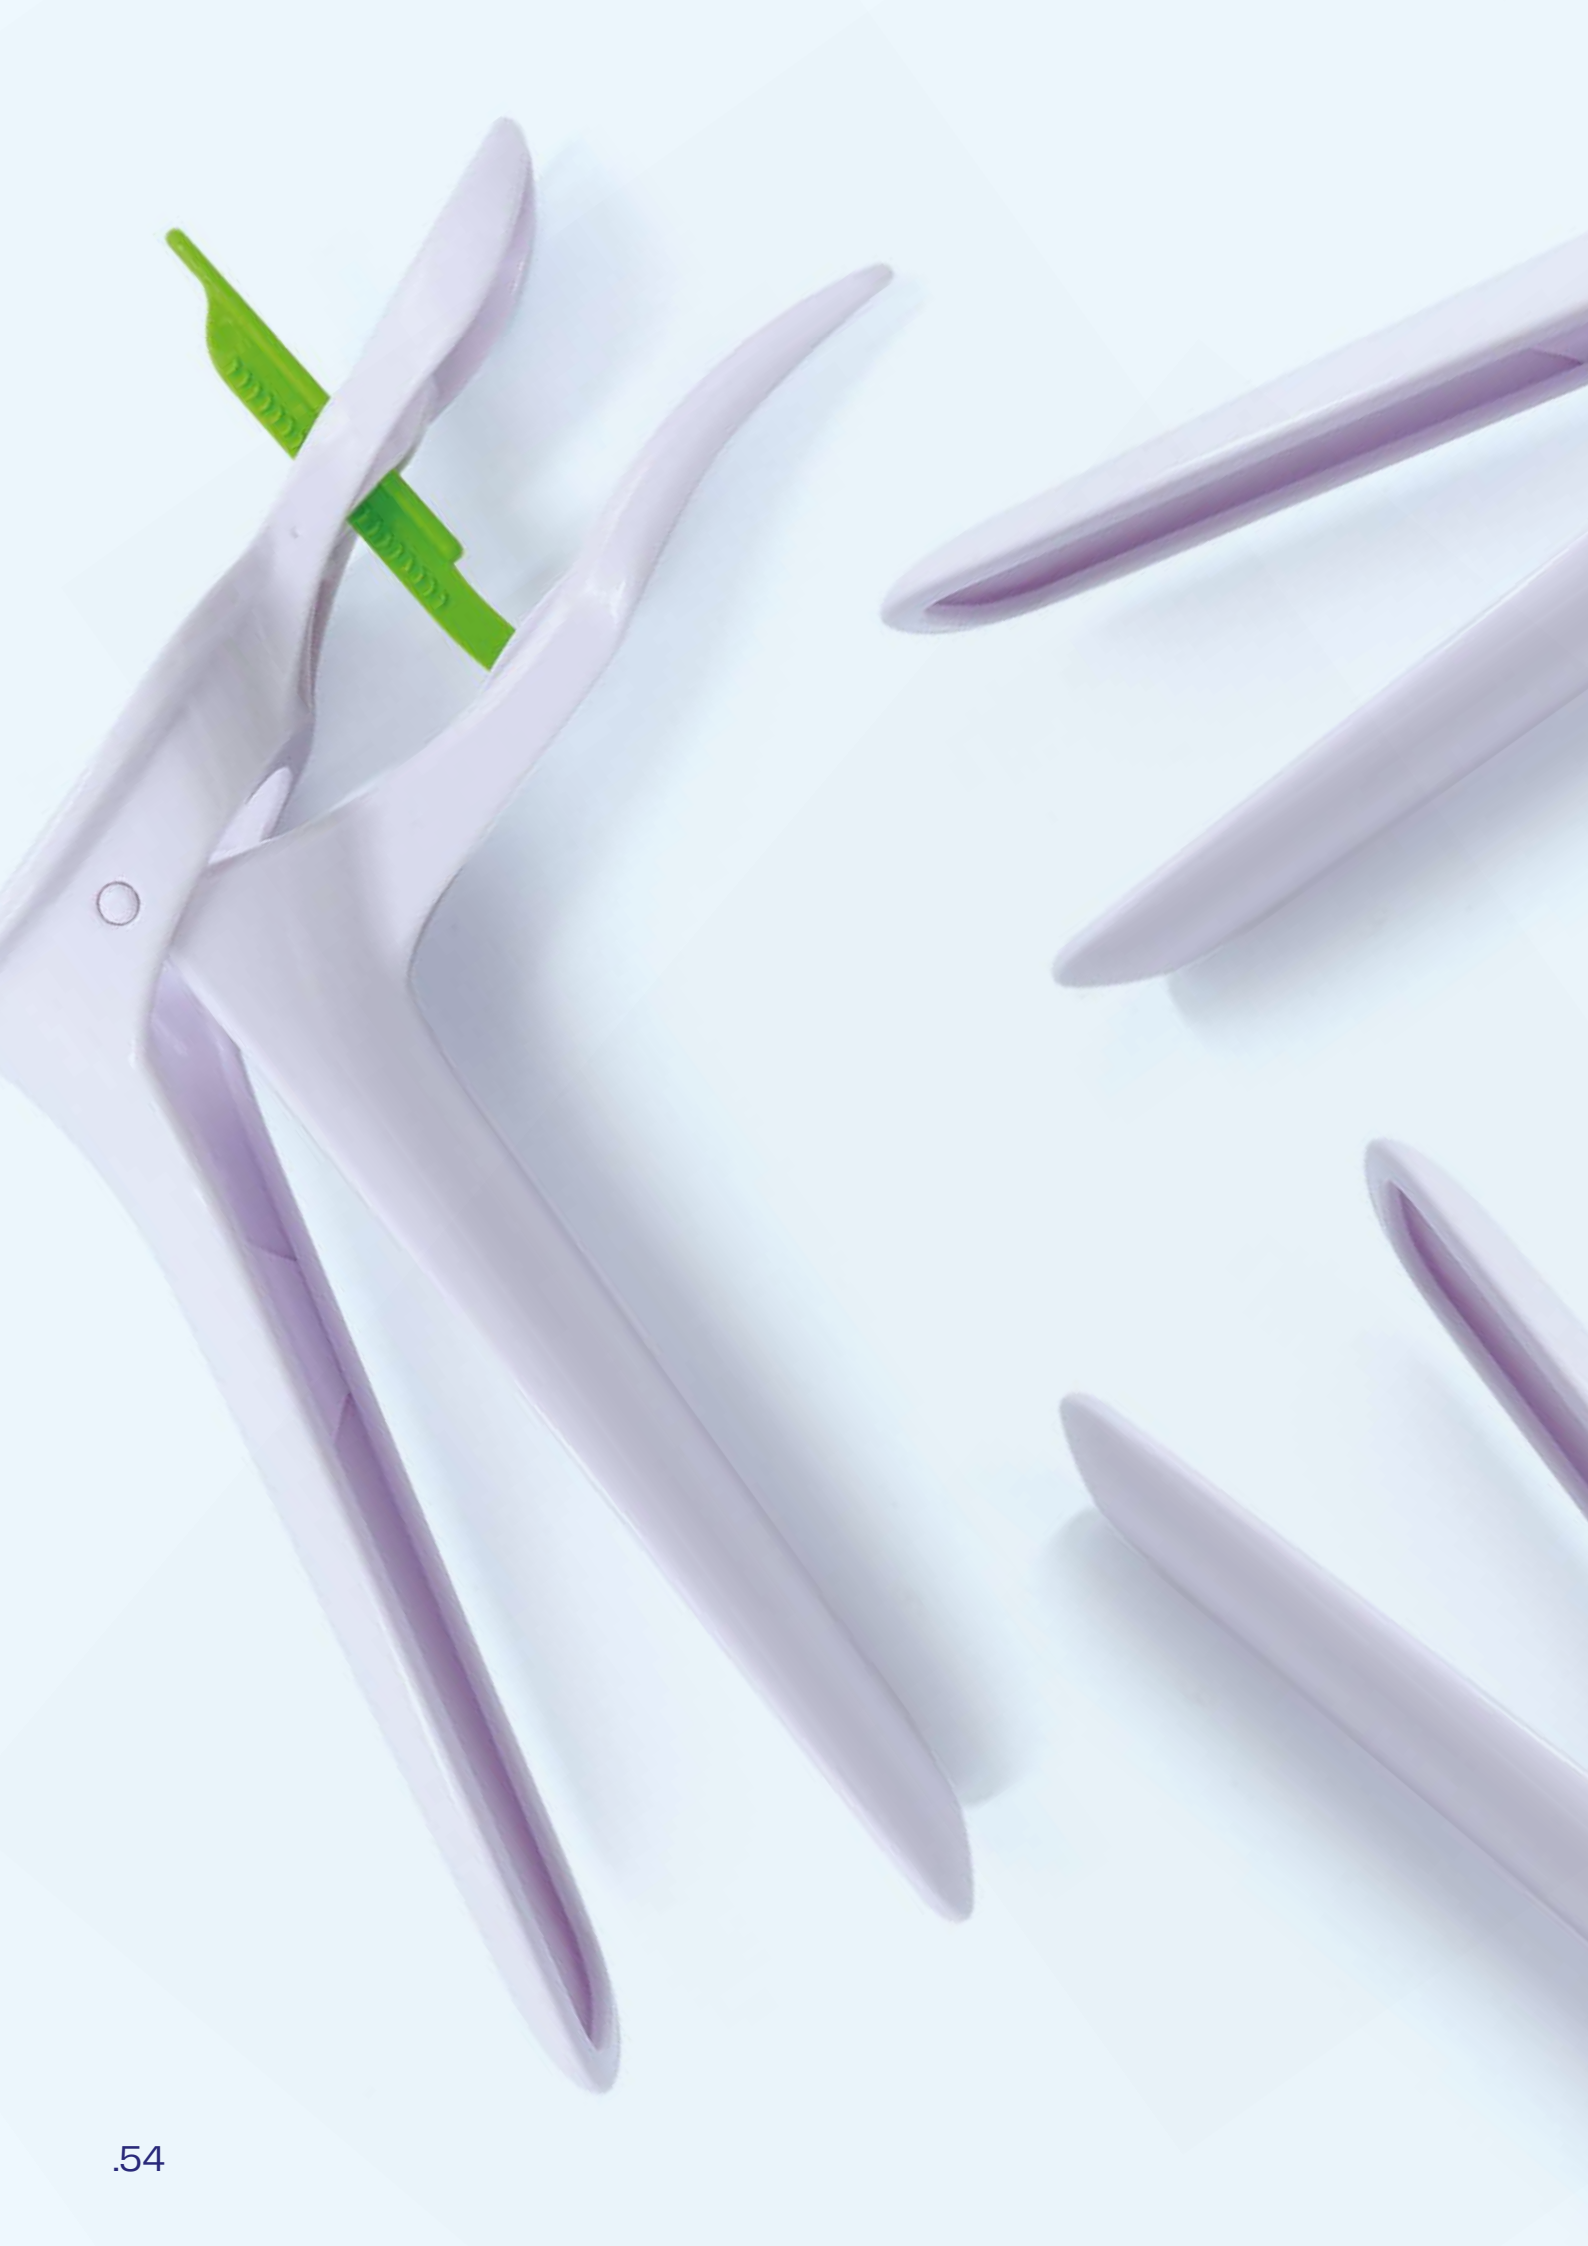

SOLO™ Biopsy Valve

- Patented functional design
- Compatible with Olympus and Fujinon endoscopes
- Reduces cross contamination
- Leakage and splash back minimisation - patented design
- Punched lid prevents splash back and ensures easy entry for accessories
- Single use, latex free, clean or sterile packed

Bridea Smoke-X™ Disposable Diathermy Speculum

Slim line smoke channel facilitates precise horizontal manipulation of instruments

Special diathermy plastic providing safe insulation, with no chance of failure

Pearl white colour for lighting reflection and accurate colour rendition

Smooth single-handed operation and locking

Disposable smoke extracting speculum, your complete solution to costly reusable insulated speculum failures

Disposable Speculum

Wide range of innovative speculums for every procedure

Sims Speculum

- Surgical quality speculum
- 80mm and 90mm speculum lengths
- Strong, crystal clear medical polymer construction
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (15 units)

Order Code W132MS

Bridea Smoke-X™ Diathermy Speculum Single Use

- Surgical quality, special diathermy plastic
- Effective smoke extraction
- Pearl white colour for lighting efficacy
- Facilitates precise horizontal manipulation of instruments due to the slim line smoke channel
- 360° access around the cervix due to inward folded edges at the tip of the blades positioning and lifting the cervix
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (20 units)

Order Code	Product

SOLO™ Ball Electrode

- 13cm length x 5mm diameter. Teflon coated
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (25 units)

Order Code E6045130DAT

Single Use Gynaecology Instruments

Innovative disposable devices perfect for your clinic

IUD Thread Retriever

- 240mm length
- Well defined hooks for fast and effective use
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (25 units)

Order Code W2111UD

Rampley Forceps

- 250mm length
- Reinforced nylon construction, ratchet locking handles
- Alignment shaft for strong grip
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (30 units)

Order Code W21141RM

Uterine Sound

- 290mm length with reinforced ergonomic handle
- Sliding depth indicator, rounded atraumatic tip
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (25 units)

Order Code W2112ES

Single Use Gynaecology Instruments

Innovative disposable devices perfect for your clinic

Uterine Sound

- 265mm length. Flexible medical HD polyethylene construction
- Rounded atraumatic tip and notched 1cm depth indicators
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (25 units)

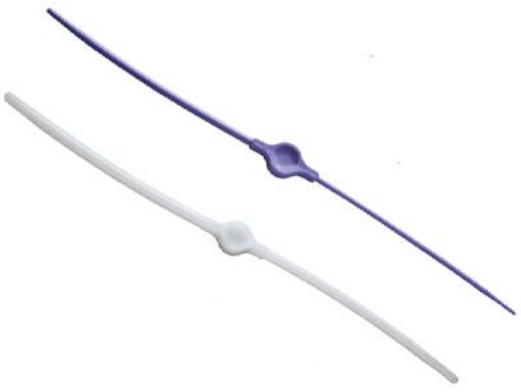

Order Code W2115PN

Uterine Sound–Dilator

- Double-ended combined device designed for gentle dilation of the cervix and depth sounding
- 277mm length with maximum diameter of 5.5mm
- Strong but flexible medical HD polyethylene construction
- Smooth, rounded atraumatic tip, 1 cm depth indicator marks
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (25 units)

Order Code W2118SD

Hegar Cervical Dilators

- 3 sizes, double-ended
- Reinforced nylon construction
- Central thumb grip
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (25 units)

Order Code	Product
W21131DL	3 / 4mm
W21132GP	5 / 6mm

Single Use Gynaecology Instruments

Innovative disposable devices perfect for your clinic

Endosampler™

- Disposable curettes for sampling the endometrium. The unique design of the Endosampler allows for superior accuracy and a more reliable sample than traditional endometrial sample devices.
- The Endosampler II™, has two holes for even easier suction.
- Convenient for routine use, suitable for cytologic and histologic diagnosis
- Facilitates both endometrial scraping and aspiration
- Avoids endometrial sample contamination
- Semi-rigid 3mm curette minimises possibility of perforation
- Curette conveniently bent with sharp slot on side assures better sampling from all areas of the endometrial cavity
- Backflow of collected sample is prevented by lockspring mechanism on syringe
- Sterile packed, single use, latex free
- UOM: Each; Dispenser Box (25 units)

Order Code	Product
W22720ES	Endosampler - single hole
W22722ME	Endosampler II - twin hole

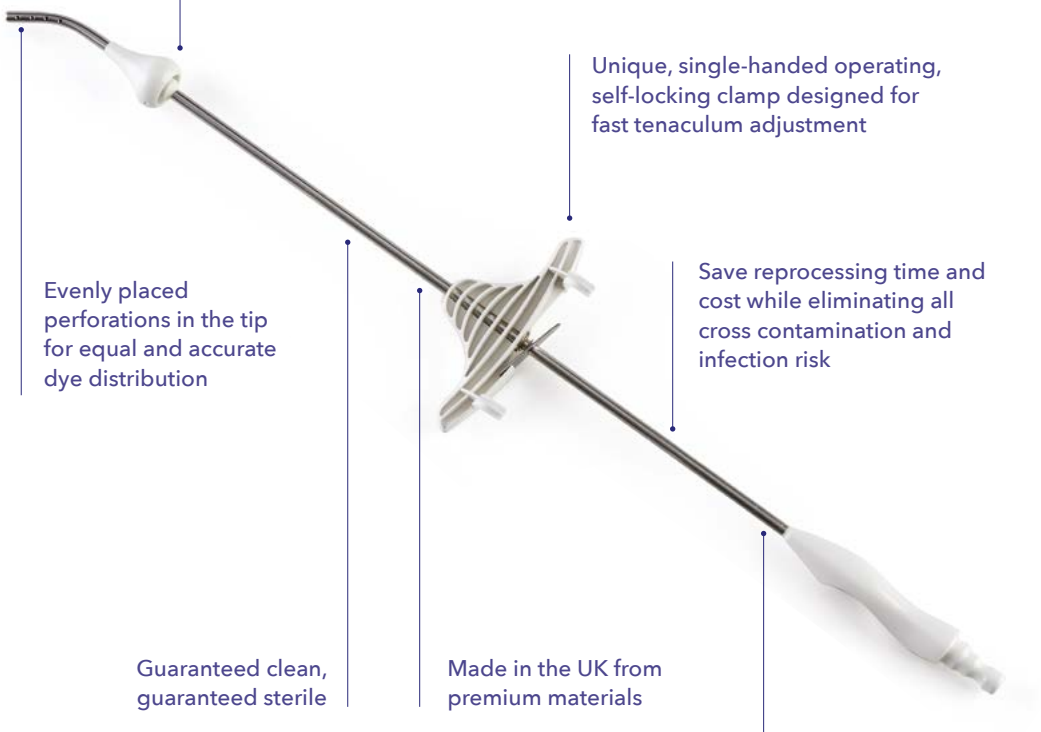

Pipelle de Cornier Mark II

- Device for histological and cytological sampling during the same procedure
- The Pipelle de Cornier Mark II, an improved version of the Pipelle, features a rough distal tip for sampling endometrial surface cells
- UOM: Each; Dispenser Box (25 units)

Order Code W22723JB

Disposable Spackmann Cannula

Uterine Manipulators

Exceptional design and quality for improved manipulation and visualisation

Spackmann Uterine Manipulator

- Risk of cross contamination eliminated with single use device
- For hydrotubation dye tests and uterine manipulation during laparascopic procedures
- Unique self-locking clamp enables single handed use
- Option of fixed or movable acorn for perfect seal on cervix
- Evenly placed holes at the tip for equal dye distribution
- Non-blocking design
- 240mm length
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (12 units)

Order Code	Product
W2121NS	Fixed acorn
W2122MA	Moveable acorn

Clearview Uterine Manipulator

Clearview pivots at the cervical os allowing the patient to remain in the supine position

Greatest range of motion of all uterine manipulators - 90° retroversion and 120° anteversion. Lateral movement for clear visability

Single handed with the self holding rotating control handle allows the surgeon to manoeuvre the device independent of an assistant

One kit contains everything you require including a sound-dilator, 12ml syringe for the tip balloon and a dye injection port

Single use - completely disposable

Uterine Manipulators

Exceptional design and quality for improved manipulation and visualisation

Clearview Uterine Manipulator

- Clearview uterine manipulator gives the greatest range of movement of any manipulator. The rotating control handle facilitates one-handed control, enabling the surgeon to manipulate the uterus without breaking the sterile barrier
- Available in 4 tip lengths
- Kit is complete – no additional components required
- Dye injector – luer fitting & balloon inflation valve for effective chromotubation
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (5 units)

Order Code	Product
WUM201	6 / 7cm tip
WUM202	8 / 9cm tip

Clearview Total Uterine Manipulator – for the TLH Procedure

- This model has the same great features as the clearview uterine manipulator with the addition of a pre-attached occluder balloon and three sizes of colpotomy cups. The colpotomy cups are designed for improved visibility during insertion and are coloured for easy identification when making the colpotomy incision. The occluder balloon serves as a seal, preventing the loss of the pneumoperitoneum once the colpotomy incision is made
- Includes 3 x colpotomy cups & occluder balloon for TLH, depth spacer turret, uterine sound, 60ml syringe and 1 x 10ml syringe
- Available in 4 tip lengths
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (5 units)

Order Code	Product
W9207CC	6 / 7cm tip
W9209SD	8 / 9cm tip

SOLO™ Pessaries

Surgical Suction

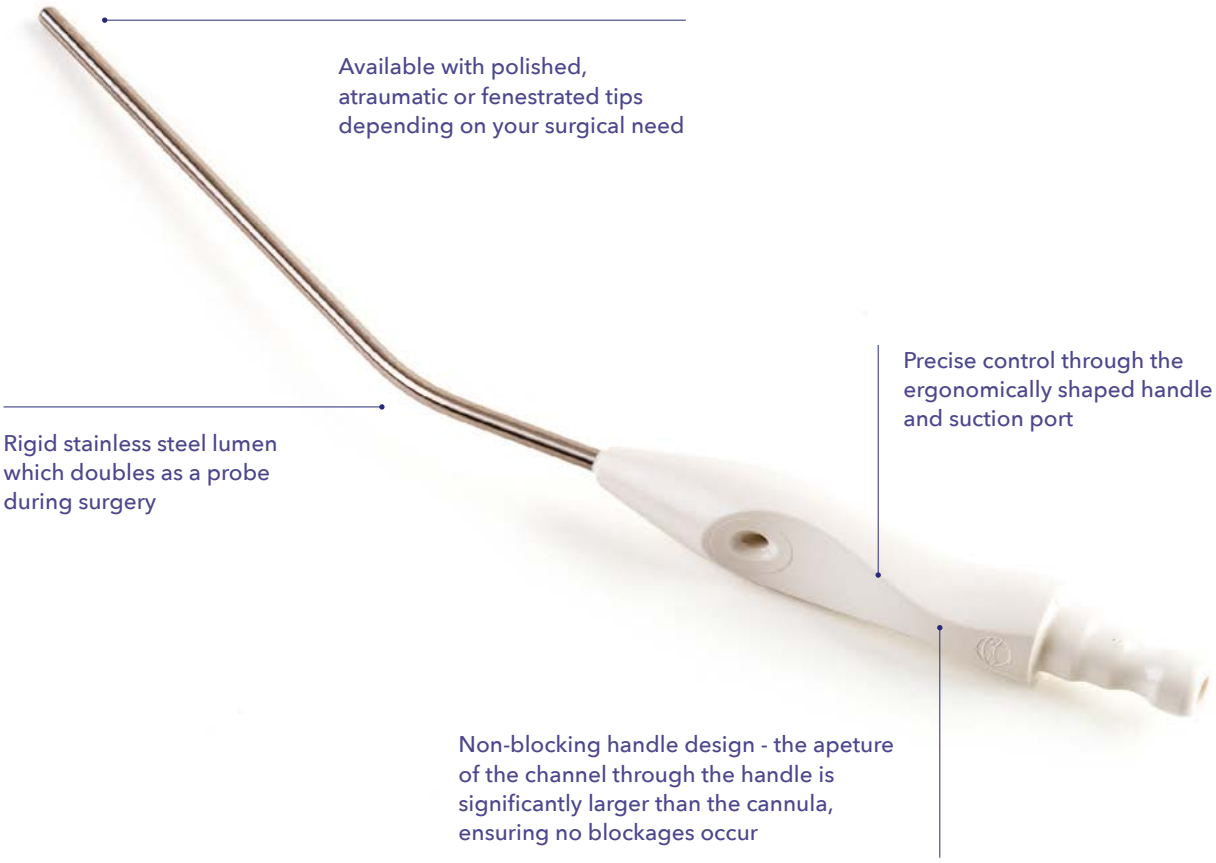

98 Frazier Suctions

100 Fukushima Teardrop Suctions

102 Specialty Suctions

New Zealand's Premium Frazier Suction

Available with polished, atraumatic or fenestrated tips depending on your surgical need

Rigid stainless steel lumen which doubles as a probe during surgery

Precise control through the ergonomically shaped handle and suction port

Non-blocking handle design - the apeture of the channel through the handle is significantly larger than the cannula, ensuring no blockages occur

Surgical Suction Cannula

Eliminate risk with single use suctions, with no compromise in quality, control and performance

Frazier Suction – Polished Tip

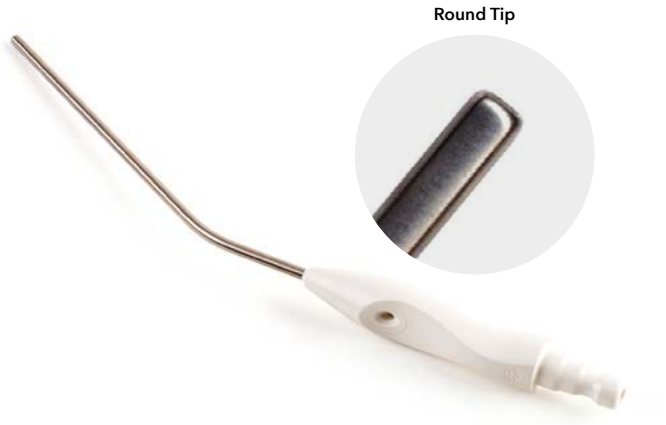

- Premium quality suction with strong stainless steel lumen which also acts as a probe
- Surgical grade ABS moulded handle, non-blocking design
- Precise suction control port
- Handle ergonomically shaped for firm grip and control
- Made in UK
- Single use, latex free, sterile packed
- UOM: Each; Dispenser Box (25 units)

Order Code	Product
H3106F	6fg x 9cm

Hand Surgery

113 Hand Immobilisers

115 Finger Traps

Introducing FlexiHand

Silicone-encased lead hands

Soft touch silicone surface for gentle patient contact

Adult sizes available

Very flexible for accurate and firm positioning. Returning the hand to the flat position can be done with ease

Lower cost per use compared to conventional lead hands

Resistant to all commonly used cleaning chemicals

Lead core provides weight and malleability of the traditional lead hand

Reusable

High density surgical silicone protects yourself, the patient and other instruments from lead

Heaviest hand at 1435g - no extra weighting or ballast is required

Hand Immobilisers

New Zealand's most comprehensive hand immobiliser range

Silicone Flexi-Hand T™

- 2.2mm lead core providing weight and malleability of traditional lead hands
- 8mm seamless surgical silicone encasing for extended lifetime use and protection from lead
- Up to 30% heavier than traditional lead hands
- Resistant to all commonly used cleaning chemicals for surgical instruments
- Autoclavable, maximum of 136°C
- Latex free
- Reusable

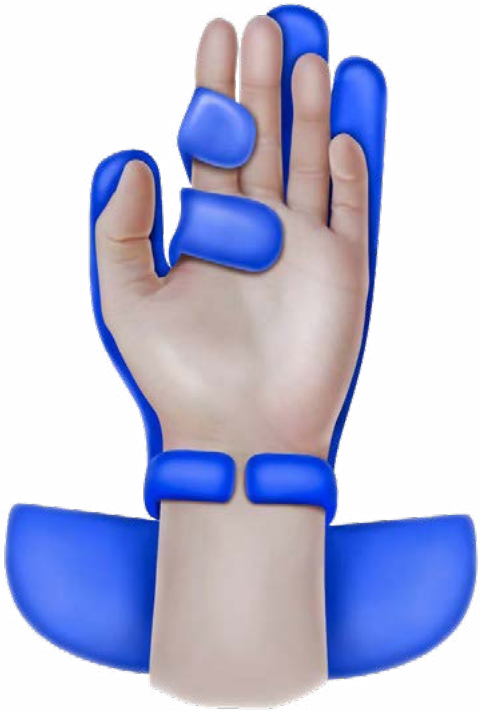

Order Code	Product
N802SL	37 x 27cm (1435g)

Silicone Flexi-Hand X™

- Malleable aluminium core encased in surgical silicone
- Anti-rollover wings to prevent arm and hand rotation during surgery
- Radiolucent for use with fluoroscopy and X-ray
- Latex free, lead free, reusable
- Autoclavable 134°C

Order Code	Product
N805XR	41cm x 33cm (640g)

Hand Immobilisers

New Zealand's most comprehensive hand immobiliser range

Durahand

- Pliable aluminium with closed cell epoxy coating
- X-ray compatible, latex free, reusable
- Autoclavable 134°C

Order Code	Product

BiopSafe

Innovative Prefilled Histology Containers

BiopSafe

Innovative Prefilled Histology Containers

The secret is in the lid

With BiopSafe, there are no difficult formalin bags and wall holders that often leads to formalin waste. The closed system consists of a small, easy-to-use container (vial) with formalin capsuled in the lid. Place the biopsy at the bottom of the container, screw the lid on and apply pressure with your thumb, allowing the formalin to flow out and cover the biopsy. Everything is done inside the container, ensuring the clinician is protected from liquid and vapour exposure.

Hermatically sealed system

Formalin is a carcinogenic substance. It can also cause irritation to mucous membranes and skin. Therefore, it is very important to secure a safe, working environment when handling formalin. With BiopSafe, the handling is done in a hermetically sealed system, providing the best protection for staff.

The new road to safer biopsy handling

One of the most common problems with biopsy handling is the risk of being exposed to formalin, either through touch or inhalation. This is a risk doctors, laboratory technicians and nurses are exposed to every day. With BiopSafe, the problem is finally solved.

Ready in seconds

As well as being safe, BiopSafe is also fast. The process of placing the biopsy, adding formalin and making it ready for transportation to the laboratory is done in a matter of seconds. BiopSafe saves valuable time!

Hallmark Surgical has deliberately set the bar high.

The name stands for excellence and commitment to arguably, the most responsible, and most respected profession known to man. To fall short, when a life (or lives), are at stake – on your part, or ours – would be unthinkable. But more than that, Hallmark Surgical backs the skill and experience of people at all levels of health care. All life is both precious and perilous. And the instruments, devices and clothing we provide are devoted to preserving that life.

Because every day, like you, we both protect and serve.
